SIDHARATH SHARMA

ISO 27001 Lead Auditor | GRC & Compliance Analyst | Cybersecurity Risk Management

(425) 287-9980 | Sidharathsharmainfo@gmail.com | https://www.linkedin.com/in/sidharathsharmainfo | https://sidharathsharma.vercel.app | **STEM OPT Authorized**

PROFESSIONAL SUMMARY

CQI & IRCA Certified ISO/IEC 27001:2022 Lead Auditor with an MS in Cybersecurity and 12+ months of professional GRC experience. Proven ability to execute multi-framework compliance programs (ISO 27001, NIST SP 800-53, SOC 2) across 500+ enterprise endpoints — reducing critical compliance gaps by 30% and employee-related risk incidents by 35%. Hands-on Vanta GRC platform administrator with expertise in risk register development, policy authoring, Active Directory hardening, and phishing simulation design. Authorized to work in the US under STEM OPT (3 years, no H-1B cap filing required).

TECHNICAL SKILLS

Frameworks:	ISO 27001:2022 ISMS | NIST SP 800-53 | SOC 2 | Risk Assessment | Internal Audit | Policy Development | Access Control | AD DS Policy Management
GRC & SIEM:	Vanta | Microsoft Sentinel | Defender for Endpoint | Office 365 Security & Compliance | Kibana | KQL (Kusto Query Language) | Wazuh
Security Tools:	Nessus | Nmap | OpenVAS | Metasploit | Autopsy | Kali Linux | Active Directory (AD DS) | Windows Group Policy (GPO)
Other:	OWASP Top 10 | HTTPS/CSP Hardening | Windows Server 2025 | Ubuntu Server 22.04 | auditd | HTML5/CSS3

PROFESSIONAL EXPERIENCE

Cyber Security Auditor (GRC) | Etech Global Services *May 2025 – Feb 2026 Nacogdoches, TX*

- Conducted multi-framework internal audits (ISO 27001, SOC 2, NIST SP 800-53) across 500+ endpoints and enterprise systems, reducing critical compliance gaps by 30%.
- Administered Vanta GRC platform for continuous compliance monitoring, automated evidence collection, and real-time audit-readiness dashboards.
- Developed and enforced Access Control policies via Active Directory (AD DS) with GPO hardening and least-privilege configurations aligned to ISO 27001 Annex A controls.
- Built and maintained risk registers; performed risk assessments and tracked remediation to closure, providing management with prioritized security roadmaps.
- Designed and executed phishing simulation campaigns and security awareness programs — achieving a 35% reduction in employee-related risk incidents organization-wide.
- Authored ISO 27001-aligned policy suite: Information Security Policy, ISMS Scope, Access Control Policy, and Audit Log & Monitoring Policy with full evidence references.
- Performed endpoint and system audits validating adherence to internal security baselines and regulatory requirements.

Cyber Security Auditor – Intern | Etech Global Services *Feb 2025 – May 2025 Nacogdoches, TX*

- Completed endpoint and system audits — identified and corrected misconfigured assets to ensure regulatory compliance across enterprise environments.
- Investigated vulnerabilities using Nmap, Nessus, and Metasploit; documented findings and delivered risk remediation recommendations to senior stakeholders.
- Improved technical documentation quality for internal risk assessments and policy reviews used in senior management reporting.

Graduate Teaching Assistant | Stephen F. Austin State University *Jan 2024 – Dec 2024 Nacogdoches, TX*

- Delivered cybersecurity instruction (CIA triad, network security, secure architecture) to undergraduate students; supervised lab sessions and evaluated technical assignments.
- Taught front-end web development fundamentals (HTML, CSS) and monitored academic examinations across full academic year.

Sr. Frontend Developer | Hypotenuse Corporation Pvt Ltd *Jul 2020 – Dec 2022 Mumbai, India*

- Implemented secure coding practices aligned with OWASP Top 10, reducing XSS and CSRF vulnerabilities; improved application load times by ~40%.
- Collaborated with cross-functional teams to deliver scalable, security-focused web solutions.

Web Developer | Digipanda Consulting Pvt. Ltd *Oct 2019 – Jun 2020 Mumbai, India*

- Hardened web applications using HTTPS, secure headers, and CSP; identified and patched access control and input validation vulnerabilities aligned to OWASP standards.

Jr. Web Developer | Vanser Technologies *Aug 2018 – Sep 2019 Chandigarh, India*

- Improved website performance, SEO practices, and secure UI implementations; supported technical documentation and milestone delivery.

KEY PROJECTS

Novapay FinTech — ISO/IEC 27001:2022 Full ISMS Implementation

- Designed and deployed a complete ISO 27001:2022 ISMS covering all 10 clauses and Annex A controls for a simulated FinTech company.
- Configured Windows Server 2025 Domain Controller with AD DS OUs, department-based RBAC, and 6 linked GPOs: baseline security, password policy (12-char/90-day), account lockout, USB controls, and department-specific endpoint restrictions.
- Deployed auditd on Ubuntu Server 22.04 with custom audit rules — captured failed SSH logins, sudo usage, and file access events.
- Authored full ISO 27001 policy suite: Information Security Policy, ISMS Scope, Access Control Policy, and Audit Log & Monitoring Policy with evidence references.

Linux Honeypot Server (Cowrie) | Firewall Evasion Analysis (CTI) | USB Forensics Investigation

- Deployed Cowrie SSH honeypot on Ubuntu. Visualized attacker behavior patterns via Kibana dashboards for threat intelligence analysis.
- Simulated DNS tunneling and port knocking to identify firewall bypass vulnerabilities; documented mitigation recommendations using CTI methodology.
- Investigated USB-based data exfiltration scenarios using Autopsy and Kali Linux — analyzed file artifacts and reconstructed attack timelines.

EDUCATION & CERTIFICATIONS

CQI & IRCA Certified ISO/IEC 27001:2022 Lead Auditor — BSI Training Academy | Cert #ENR-01916942 *Feb 2026*

MS in Cybersecurity — Stephen F. Austin State University, USA *Dec 2024*

Fortinet Certified Associate – Cybersecurity | Cisco Introduction to Cybersecurity *Jun 2025 / May 2025*
