

SIDHARATH SHARMA

GRC Analyst | ISO 27001 Lead Auditor | Governance, Risk & Compliance

(425) 287-9980 | Sidharathsharmainfo@gmail.com | <https://www.linkedin.com/in/sidharathsharmainfo> | <https://sidharathsharma.vercel.app/>

PROFESSIONAL SUMMARY

GRC Analyst and CQI & IRCA Certified ISO 27001:2022 Lead Auditor with hands-on experience in risk registers, internal audits, control testing, and remediation tracking. Contributed to 5+ security policy drafts, led/supported 13 internal audits, assessed 50+ systems for compliance and access-control gaps, and helped close 80+ audit findings across ISO 27001 and NIST frameworks. Skilled in translating technical findings into clear management reporting. Open to Junior GRC Analyst, Information Security Analyst, and Compliance roles.

CORE GRC COMPETENCIES

Governance: Policy development and lifecycle management, control framework alignment (ISO 27001:2022, NIST 800-53, SOC 2), security governance documentation.

Risk Management: Risk register maintenance, risk assessments and scoring, third-party/vendor risk reviews, risk treatment planning.

Compliance: Control testing, audit evidence collection, gap analysis, remediation tracking, ISO 27001 readiness audits, IAM/access control audits.

Tools: Vanta, Microsoft Active Directory and GPO, Nessus, Nmap, OpenVAS, Microsoft Sentinel, Defender for Endpoint, KQL, Office 365 Security and Compliance.

PROFESSIONAL EXPERIENCE

Cyber Security Auditor (GRC Analyst)

Warren & Carter Technologies | April 2026 – Present | Nacogdoches, USA

- Own and maintain the risk register covering security and vendor risk policies; map controls to NIST and ISO 27001 to strengthen internal governance.
- Conducted 13 internal audits across infrastructure, assessing 50+ systems as part of ongoing risk assessments and IAM access reviews.
- Led ISO 27001 readiness audits and control-effectiveness testing, including phishing simulation exercises; closed 80+ findings and tracked remediation through management reporting.

Cyber Security Auditor

Etech Global Services | May 2025 – February 2026 | Nacogdoches, USA

- Drafted NIST/ISO-aligned governance and vendor risk policy proposals supporting consistent data privacy adherence across the organization.
- Conducted internal audits across 7 departments, assessing 35 systems for access control and IAM compliance.
- Ran phishing simulation control tests and ISO 27001 readiness audits; closed 70+ findings across assessed systems.

Cyber Security Auditor – Intern

Etech Global Services | February 2025 – May 2025 | Nacogdoches, USA

- Completed endpoint and system audits, identifying misconfigured assets and tracking remediation to support compliance.
- Assessed system vulnerabilities using Nmap, Nessus, and Metasploit to support risk assessment reporting.
- Produced audit documentation and risk assessment reports for senior management review.

Graduate Teaching Assistant

Stephen F. Austin State University | January 2024 – December 2024 | Nacogdoches, USA

- Taught foundational cybersecurity and governance concepts (CIA triad, network security, secure architecture) to undergraduate students.
- Supervised laboratory sessions and evaluated technical assignments with consistent grading standards.

Sr. Frontend Developer

Hypotenuse Corporation Pvt Ltd | July 2020 – December 2022 | Mumbai, India

- Developed secure web applications and applied OWASP Top 10 practices to reduce XSS and CSRF exposure.

PROJECTS

- **Novapay Fintech ISO 27001 ISMS:** Designed and governed a complete ISO/IEC 27001:2022 ISMS (all 10 clauses + Annex A) including risk assessment, access control policy, and audit/monitoring policy documentation with evidence references.
- **Linux Honeypot (Cowrie):** Deployed Cowrie honeypot on Ubuntu to monitor unauthorized SSH activity; visualized attack patterns using Kibana dashboards for risk reporting.
- **USB Forensics Investigation:** Investigated USB-based data exfiltration scenarios using Autopsy and Kali Linux; analyzed artifacts to support incident risk assessment.
- **Firewall Evasion Analysis using CTI:** Simulated firewall bypass techniques (DNS tunneling, port knocking) to assess control gaps; documented risk findings and mitigations.

EDUCATION & CERTIFICATIONS

- **CQI & IRCA Certified ISO/IEC 27001:2022 Lead Auditor** — BSI Training Academy | February 2026 | Cert #ENR-01916942
- **M.S. in Cybersecurity** — Stephen F. Austin State University, USA | December 2024 | GPA 3.5/4.0
- **Fortinet Certified Associate – Cybersecurity** | June 2025
- **B.Tech. in Electronics and Communication Engineering** — Kurukshetra University, India
